**ISSUE 1: SONOMA DEVELOPMENTAL CENTER FIRE ALARM UPGRADE**

The Governors May Revision requests an increase of \$5.2 million (GF), for the construction phase of Sonoma Developmental Center fire alarm upgrade project. Funds are contingent upon approved working drawings and provisional language to allow expenditure of these funds upon approval by the Director of the Department of Finance and prior notification to the Joint Legislative Budget Committee.

**ISSUE 2: QUALITY ASSESSMENT CONTRACT ADJUSTMENT**

The Governors May Revision requests an increase of \$1.8 million (GF) to reflect a decrease in associated savings. The savings associated with this contract in the Governor's Budget were inadvertently doubled.

**STAFF COMMENT**

This proposal is a technical budget error. The consolidation referred to is a result of the Life Quality Assessments and Movers Study Assessments, which are a part of the current year \$334 million reduction to the DDS. Should funding not be increased, the Department will not have sufficient funding to complete consolidation into one quality assurance survey to measure consumer and family satisfaction, provision of services and personal outcomes.

<b>ISSUE 3: FEDERAL STIMULUS FUNDS –PURCHASE OF SERVICES</b>
--

The Governors May Revision requests GF adjustments as they relate to regional center purchase of services (POS). Adjustments are as follows:

	<b>General Funds</b>	<b>Reimbursements</b>
Purchase of Services (POS)	-\$3,056,000	\$3,056,000

<b>STAFF COMMENT</b>
----------------------

Adjustments to RC POS reflect the enhanced FMAP, due primarily to the elimination Adult Day Health Care (ADHC) services and changes to the HCBS Waiver.

DDS consumers currently use ADHC as a generic service. The \$1.8 million (GF) savings for POS are dependent on the elimination of ADHC, as the estimate to purchase of services would impact the new FFP funds that could be generated and are expected October 1, 2010.

<b>Projected Savings</b>	<b>HCBS Waiver</b>	<b>Elimination of ADHC</b>
\$3.0 million	\$1.3 million	\$1.8 million

The Subcommittee previously took an action on April 26<sup>th</sup> to reject the Governors proposal to eliminate ADHC.

**ISSUE 4: SELF DIRECTED SERVICES IMPLEMENTATION DELAY**

The Governors May Revision notes a delay in the Self Directed Services program. The new implementation date of April 1, 2011 results in a current year GF decrease of \$1.0 million and a reimbursements decrease of \$1.6 million.

**BACKGROUND**

The Self Directed Services (SDS) program would implement a capped and finite individual budget, by which individuals who are eligible for state developmental disabilities services are empowered to gain control over the selection of services and supports, that meet their own needs.

SD Services programs are implemented nationwide and have garnered international and bi-partisan support. The delay was filed on behalf of DDS, by DHCS, due to discussions with the federal government regarding the role of the regional center as a fiscal intermediary in the SDS program. Rejecting this May revision proposal would leave funds in the DDS budget that the Department does not anticipate using in 2010-11.

**ISSUE 5: APRIL FINANCE LETTER: LANTERMAN DEVELOPMENTAL CENTER CLOSURE**

**Closure Proposal.** The Administration announced the closure of Lanterman Developmental Center (Lanterman) on January 29, 2010 and submitted the Closure plan as an April Finance Letter. The closure has been proposed for three reasons: (1) its consistent declining population; (2) the fixed expenses necessary to operate the facility (LDC has the highest per-resident cost among the developmental); and, (3) the facility's aging infrastructure/repair needs to both water and sewer system cost. The closure plan was submitted pursuant to Section 4474.1 of Welfare and Institutions Code.

**BACKGROUND**

Located in eastern Los Angeles County on the western end of the City of Pomona, Lanterman Developmental Center consists of three separate parcels with a total acreage of 286.6. Lanterman provides three levels-of-care; general acute care hospital needs, intermediate care facility (ICF), and a nursing facility (NF). As of March 3, 2010 it serves 393 consumers and employs 1,280 staff. Lanterman once housed 3,000 individuals, but has been experiencing a steady decline in resident population, ranging from 29 to 47 residents each year since 2006.

**Closure Details.** Overall the goal of the Department is to mirror closure as closely to the Agnews Closure as possible, but consider the differences between the two facilities. The core components for planning are: (1) the Individualized Program Plan (IPP); (2) the Placement Planning Process; (3) the Individualized Health Transition Plan (IHTP); and, (4) Monitoring Resident Transition. The Department notes that this closure will be person-centered and the IPP will inform transitions. Additionally, a Quality Management System will inform remediation and improvement of the transition plan for consumers.

**Budget.** Lanterman has the highest per-resident cost among the Developmental Centers at \$289,000 per resident based on existing expenditures. Currently, the DDS budget includes \$116.5 million to serve 393 residents. The Department believes closure can take place without requesting additional resources if its existing level of funding is maintained. Funding through the RC Operations and Purchase of Services for consumers residing in the community is also provided, along with supplemental funds for Community Placement Program plans to increase capacity. The plan includes high-level fiscal assumptions of DC costs and Community Cost, but does not provide dollar amounts for each.

Future funding may be attained through the federal "Money Follows the Person" grant for staffing and consumer cost in the community during the first year of transition. Additionally, the DDS notes that almost all residents are Medi-Cal eligible and over 75 percent are also eligible for federal Medicare services.

**Timeline.** Closure will only occur when the necessary services and supports are in place for the closure and each resident has transitioned from the facility. No specific date has been set, but the Department notes that this closure will occur over at least two years.

#### **STAFF COMMENT**

Previously heard by the Subcommittee on May 5<sup>th</sup>, with extensive public comment, this closure is a continuation of the national trend and State and Federal policies to deinstitutionalize people with developmental disabilities. The Departments considerations for the consumer's health and safety are shown in the careful proposals outlined in their Closure Plan and the trailer bill proposed.

Trailer Bill/Budget Bill Language to be considered includes (*all language subject to further discussion*):

1. Placeholder Trailer Bill Language provided by the DDS to expand Adult Residential Facilities for Persons with Special Health Care Needs (962 Homes) so this residential model can be provided state-wide. **Attachment 1** eliminates the 2005 language that established these homes as a pilot program for Agnews Developmental Center, gives DDS authority to establish reimbursement rates for these facilities, and requires direct care personnel to have more in-service training as specified and for Administrators to have completed a certification program.
2. Modified Trailer Bill Language to direct the DDS to provide outpatient clinic services throughout the Lanterman Developmental Center Closure process, just as is done in the Agnews Developmental Center Closure (**Attachment 2**).
3. Placeholder trailer bill language, provided by the DDS for Lanterman staff to be contracted out, if they choose, to work in the community, as was done in Agnews. **Attachment 3** will allow staff to utilize their expertise in the community to meet the needs of residents transitioned into the community and to retain their State employee status. Lanterman employees may be contracted out by RC's or other DC's, if they choose, to work in the community and maintain their salaries and benefits, as was done with Agnews employees.

4. Budget Bill Language to require the DDS to provide a comprehensive status report of the Lanterman Plan by January 10 and May 14 of each fiscal year (**Attachment 4**).
5. Trailer Bill Language to have the Secretary of Health and Human Services Agency to verify protocols as noted for the health and safety of individuals transitioning from Lanterman (**Attachment 5**).
6. Modified Trailer Bill Language to provide for cost-based reimbursement for Health Plans serving consumers transitioned from Lanterman to ensure health care coverage, as was done in Agnews (**Attachment 6**).

**ISSUE 6: FEDERAL MONEY FOLLOWS THE PERSON (MFP)**

The Governor's May Revision requests an increase of \$3,537,000 in reimbursements to reflect the anticipated receipt of a Money Follows the Person federal grant (also known as California Community Transitions).

**BACKGROUND**

This new federal grant source can be used for eligible consumers transitioning into the community from Lanterman Developmental Center. Specifically, the grant will help fund increased staffing cost.

**STAFF COMMENT**

This grant helps the State's efforts to move individuals currently residing in institutions back into their communities. For the purpose of Lanterman DC, the funding will support the Departments plan to complete the closure within existing resources.

**ISSUE 7: ADDITIONAL 1.25% REDUCTION**

The Governor's January 2010-11 Proposed Budget included a \$48.2 million (\$25 million GF) reduction to the DDS. To achieve this savings, the Administration is now proposing increasing the 3 percent reduction on both the Purchase of Services and Regional Center Operations by another 1.25 percent, for a total reduction of 4.25 percent.

**BACKGROUND**

The 2010-11 Governor's Budget extended, by one-year, a three percent reduction to Regional Center funding, both for the Purchase of Services and for Operations. The proposal was adopted in the Eight Extraordinary Session by both the Senate and the Assembly.

The adopted reduction accounted for the exemption of SSI and SSP consumers and consumers who regional centers demonstrate that a non-reduced payment is necessary to protect their "health and safety." The new sunset deadline adopted is June 30, 2011.

**Additional Reduction.** The additional 1.25 percent reduction would yield the desired savings of \$48.2 million, of this total, \$25.3 million is GF. Of the \$25 million reduction, \$20.7 million will be made to regional center POS and \$4.6 million would be made to regional center Operations.

Although the reduction is made to RC Operations and POS, in discussion with the Department, a proposal to implement a provider relief program, based after a 1992 model implemented by SB 485 was shared with staff. The Trailer Bill Language for the additional 1.25 percent reduction was made available to the Subcommittee on May 20th.

**Proposed Trailer Bill Language.** The language provided by the DDS adds Section 4791 to the Welfare and Institutions Code to provide reductions in payments to specified providers, and amends Section 3 of Chapter 4 of the Eighth Extraordinary Session to allow the provider relief to take effect July 1, 2010 and sunset along with the previous reduction on June 30, 2011.

The language allows providers to *"temporarily modify personnel requirements, functions, or qualifications or staff training requirements for providers, except for licensed or certified residential providers."* However, the language also specifies that the temporary modification may only be approved when the RC determines that the change will not: (1) *adversely affect the health and safety of a consumer,* (2) *result in a more restrictive environment,* (3) *negatively impact the availability*

*of federal financial participation, or (4) violate state licensing or labor laws or other provisions on Title 17 of the California Code of Regulations.*

To provide relief, the Department may suspend: (a) staffing ratios, (b) day programs and in-home respite annual self assessments of program effectiveness in relation to their program design and written reports or (c) quarterly and semi-annual progress reports required in Title 17, Section 56026. The suspension shall be described in a written contract between the RC purchasing the service and the provider and documentation shall be retained by the provider and the regional centers purchasing the services from the vendor.

#### **STAFF COMMENT**

**General Impact.** Previously heard in the Subcommittee on May 5<sup>th</sup> and May 20<sup>th</sup>, the \$25 million GF savings is achieved after excluding those in the original 3 percent trailer bill language (SSI, SSP and upholding the "health and safety of a consumer"), Capitol People First settlement agreement, Independent Living Supplement, Supported Employment, Usual and Customary Services, and payments consumers.

Just as in the original 3 percent reduction made in February, the primary concern is how this reduction will impact consumers. The original 3 percent reduction adopted in the 8<sup>th</sup> Extraordinary Session excluded SSI and SSP consumers, as well as those who RC's demonstrate that a non-reduced payment is necessary to protect their "health and safety." The provider relief trailer bill accounts for these exclusions and attempts to addresses relief for residential providers.

Overall, given the multiple Health and Human Services programs proposed for elimination by the Governor, it is important to note that a reduction across the board spreads impact throughout the developmental disabilities system. However, this is also a system that incurred a \$334 million unallocated reduction and a 3 percent reduction to regional centers in the last fiscal year.

(3) A list of all current prescription and nonprescription medications the consumer is using.

(4) A list of all health care and intensive support services the consumer is currently receiving or may need upon placement in the ARFPSHN.

(5) A written statement from the consumer's primary care physician familiar with the health care needs of the consumer, or other physician as designated by the regional center, that the consumer's medical condition is predictable and stable, and that the consumer's level of care is appropriate for the ARFPSHN.

(6) Provision for the consumer to be examined by his or her primary care physician at least once every 60 days, or more frequently if indicated.

(7) A list of the appropriate professionals assigned to provide the health care as described in the plan.
